 Comments.

- (1) The number of cars available in this category has again risen considerably.
- (2) There was a slight increase in the number of heavy-duty flatcars assigned to tank shuttle trains. It is believed that most of the equipment listed in the column "Reserve Cars" are also used for tank shuttle trains.
- (3) The continuously varying number of heavy-duty flatcars results from the fact that rolling stock operating outside Eastern Germany on a day of count are not recorded.
- (4) As of 21 July 1962, a total of 47 tank cars was available in Eastern Germany.
